Subject: Personnel Announcement - David Stallard - B Sites Project Manager

PERSONNEL ANNOUNCEMENT

The Principal Program Manager is pleased to announce that David Stallard will assume the duties as the B Sites Project Manager after a successful 14-month assignment on the LOGCAP III Senior Leadership Team. David is a 10-year KBR employee and arrived on the LOGCAP III project in July 2003 as the Site Manager and acting Project Manager for the B Sites. He was previously the Deputy Project Manager at the B Sites and D&F Sites, and Project Manager for the H Sites. He returns to the field after serving as the LOGCAP III Deputy Program Manager-Operations since May 2008. Prior to joining KBR, he served eight years as a U.S. Navy Seabee. David is originally from Louisiana, but he and his family now call Arizona home. David's construction and management background, along with his LOGCAP III experience, will continue to be an asset for the project.

Congratulations, David – and thank you for a job well done!
